PROVINCIAL CONTRIBUTION TO PUBLIC EDUCATION

The total cost of public education in Manitoba includes direct expenditures for the operation of schools (e. g. educator and administrator salaries, teaching supplies, pupil transportation, utilities, building maintenance) and capital expenditures for school building construction and major building repairs and renovations. Also included are provincial expenditures for pensions for retired teachers and the provincial education tax credit program for homeowners and tenants which results in reduced property tax bills. The total provincial contribution to public education accounts for 73.4% of the total of these expenditures.

FORWARD

The Financial Reporting and Accounting in Manitoba Education system, more commonly known as FRAME, provides school divisions with a standardized method of accounting and financial reporting. This, in turn, provides a provincial database which can be used by school division management, Manitoba Education and Training, or interested third parties.

The analysis contained in this report is based upon financial and statistical information submitted by school divisions. While verification procedures have resulted in some correcting adjustments to the data, the Schools' Finance Branch of Manitoba Education and Training cannot guarantee complete accuracy.

Any errors that may be found after publication will be corrected and posted on the Internet on Manitoba Education, Training and Youth's web site at: http://www.edu.gov.mb.ca/ks4/finance/facts/

INTRODUCTION

FRAME uses a multidimensional accounting coded structure, which allows expenditures to be reported by two main funds: Operating and Capital. Within the Operating Fund, expenditures are further sub-divided into 9 Functions, which cover everything from Regular Instruction to Operations and Maintenance. Inside individual functions expenditures can be analysed by either Program or Object. Programs refer to the different sub-sets of programs offered within a function, for example the English Language section of Regular Instruction. Objects refer to those items that make up a program such as Salaries or Employee Benefits. This same structure is used in the design of the summaries included in this report.

For more information, refer to the definitions of expenditures by function, the glossary of other terms used in this report and the additional explanatory notes that follow.

EXPENDITURE DEFINITIONS

Operating Fund – consists of the nine functions defined below:

Function 100 - Regular Instruction - Consists of costs related directly to the K - S4 classroom, (e.g. teachers, educational assistants, textbooks, related supplies, services, and equipment such as audio-visual equipment and computers). Also includes school based administration costs including principals, vice-principals, and secretarial staff.

Function 200 - Exceptional - Consists of costs specifically related to students who have special needs, (e.g. students who are gifted or physically, cognitively, or emotionally/behaviourally challenged). These costs would include special education and resource teachers, special needs educational assistants, clinicians, and related and appropriate services (e.g. occupational therapists), supplies, textbooks, materials, equipment, and software. Special education co-ordinators and clerical staff are also included.

Function 300 - Adult Learning Centres - Consists of costs related to Adult Learning Centres (ALC) owned and operated by school divisions. ALC's offer off-campus, adult centred programs in which adult education principles and practices are applied to curriculum and program delivery. Does not include costs associated with adults in the regular classroom. Also, does not include costs associated with ALC's that are governed by their own board of directors.

Function 400 - Community Education and Services - Consists of costs related to providing services (such as community use of facilities and gym rentals) and non-credit courses to community groups and individuals. Includes pre-kindergarten education.

Function 500 - Divisional Administration - Consists of costs related to the administration of the school division including the board of trustees and the superintendent's and secretary-treasurer's departments.

Function 600 - Instructional and Pupil Support Services - Consists of costs related to support services for pupils, teaching staff, and the educational process, such as library, counselling and guidance, professional development, and curriculum consulting and development.

Function 700 - Transportation - Consists of all costs, including supervisory and clerical personnel, related to the transportation of pupils. Does not include the purchase of school buses over $20,000 per unit as they are recorded in the capital fund.

Function 800 - Operations and Maintenance - Consists of all costs, including supervisory and clerical personnel, related to the upkeep, maintenance, and minor repair of all school division buildings and grounds. Includes utilities, taxes, insurance, and supplies. Does not include capital costs.

Function 900 - Fiscal, Payroll Tax and Interfund Transfers - Consists of short-term loan interest, bank charges and the Health and Education Levy.

Note: Capital costs are not included in Operating Fund functions. See definition of Capital Fund.

Capital Fund - Consists of land, buildings, equipment which has a value of $20,000 or more and a useful life of more than 3 years, and projects which have a dollar value of $20,000 or more and are considered to be betterments.

GLOSSARY OF TERMS

Change in Working Capital – increase or decrease in bank accounts, accounts receivable, accounts payable, short-term investments and short-term loans.

CPI – consumer price index as determined by Statistics Canada. The CPI is a measure of the average percentage change over time in the cost of a fixed basket of goods and services purchased by Canadian consumers.

Dual Track – Refers to schools in which more than one language program (English, Français, French Immersion or Other Bilingual) is offered, and where none of the programs alone comprise 90% or more of the total Regular Instruction enrolment. Includes cost of Regular Instruction for all students in these schools.

Education Support Levy – the provincial levy collected on all property except farmland for education funding purposes. The Education Support Levy, combined with funds from general revenues, comprises total provincial funding to public schools.

Expenditure Classifications
Function - (why an object was purchased) - describes very broadly the services provided in the main business areas of school divisions.
Object - (what was purchased) - a service or commodity obtained as the result of a specific expenditure. An object of expenditure is that upon which money is spent.
Program - Each function is comprised of a number of programs which relate the principal operations to the main business areas.

FTE - full time equivalent means pupils are counted on the basis of time attending school (i.e. kindergarten students are counted as one half and adults are counted according to percentage of time attending).

Information Technology Equipment - computer hardware, software, and computer related peripherals such as printers, scanners, CD ROM writers/players, monitors, modems, routers, Local and Wide Area Network components. Also includes equipment that is part of a one or two-way multi-site video delivery system such as TV, VCR, microwave transmitter, satellite receiver, switching controls and video/audio equipment.

Information Technology Salaries - salaries of all personnel who are responsible for the coordination, installation, and maintenance and repair of computers and computer systems and data, video and/or multi-media networks such as computer technicians, programmers and network administrators.

Information Technology Services - services not provided by division personnel respecting the installation and maintenance of computers, computer systems, and data, video and/or multi-media networks, including contracts and maintenance agreements. Also includes dedicated line charges and long distance charges related to the electronic transfer of data and educational programming (e.g. distance education) and Internet access charges. Also includes rentals and leases related to information technology equipment.

K – S4 - kindergarten to senior 4 (grade 12)

Mill Rate – the rate of taxation applied per $1,000 of portioned assessment. For example, on a Residential 1 property assessed at $100,000 with a mill rate of 20 mills, the amount of tax payable would be:

$100,000 ÷ 1,000 x 45% (portioned assessment rate) x 20 mills = $900.

N – S4 - nursery to senior 4 (grade 12)

Portioned Assessment - the percentage of total assessed market value that is subject to taxation. The Province sets the portion percentages for different property classes through the Municipal Assessment Act regulations. For example, a Residential 1 property has a portioned assessment for taxation purposes of 45% (2002) of its market value assessment

Single Track - Refers to schools in which 90% or more of Regular Instruction students are enroled in one language program (either English, Français, French Immersion or Other Bilingual). Other language programs may be offered, but students enroled in those programs comprise, in total, less than 10% of the total enrolment. Includes cost of Regular Instruction for all students in these schools.

Special Levy – an amount of tax levied on a calendar year basis by school divisions on all eligible, taxable property, including farmland, within each school division's boundaries.

Total KM (Log Book) - all kilometres travelled by buses. The figures are taken from the Daily Inspection Logs for school buses and therefore include kilometres for regular transportation to and from school in the morning, at lunch time and after school, transportation to other schools, transportation to other facilities for school sponsored activities, and transportation for field trips, etc.

Total KM (Routes) - all kilometres travelled by buses on regular bus routes. Includes only kilometres related to transportation starting from the bus garage in the morning to the school and back to the bus garage after school (i.e. field trips, lunch hour transportation, etc. are not included).

Loaded KM - all kilometres travelled by buses on regular bus routes while loaded with students. Includes only kilometres related to transportation on regular routes (see description of regular bus routes above) starting from when the first student is picked up until the last student is dropped off.
